Screen 1 - Offline score library

P7 Rapid Prototyping | Responsive web app | Contributed by: C - Ankit Joshi

User action: Open the correct downloaded instrument part.

Design decision: Keep assigned parts together and show offline availability.

Interview evidence: “I download everything to where it's all in the same place in the offline section so I can easily bounce between.” — Interview 1

Segment: Format-Constrained Score Navigators

Next: open the score.

Static UI prototype. Sample score content; offline storage and PDF handling are not implemented.

Screen 2 - Score viewer and navigation

P7 Rapid Prototyping | Responsive web app | Contributed by: C - Ankit Joshi

User action: Use page or section controls to reach the passage.

Score Companion

Offline - downloaded scores available

Score library

Practice review

Movement I - Percussion

Reach the passage without covering the notation.

Section B - measures 17-32

Section B - Measures 17-24

Design decision: Keep navigation outside the score so controls do not obscure notation.

Interview evidence: “MuseScore doesn't have a good zoom functionality to it and the UI gets in the way of the notes. No markup either for finger positions.” — Interview 4

Segment: Format-Constrained Score Navigators

Next: capture the correction at measure 24.

Static UI prototype. Sample score content; offline storage and PDF handling are not implemented.

Screen 3 - One-action measure marker

P7 Rapid Prototyping | Responsive web app | Contributed by: C - Ankit Joshi

User action: Mark measure 24 and stay ready for the next entrance.

Practice review

Capture the correction

The director calls out measure 24 and prepares to restart.

Section B - Measures 17-24

Measure 24 marked

Saved for later. Ready to play again.

Design decision: Use one action to flag the identified measure without opening a typing dialog.

Interview evidence: “Often we don’t have enough time to pick up our pencils, write it down, and get ready to play again.” — Interview 7

Segment: Reactive Score Annotators

Next: add context after rehearsal.

Static UI prototype. Sample score content; offline storage and PDF handling are not implemented.

Screen 4 - Measure-linked practice cue

P7 Rapid Prototyping | Responsive web app | Contributed by: C - Ankit Joshi

User action: Add a concise cue after rehearsal and save it to the marked passage.

Score Companion

Offline - downloaded scores available

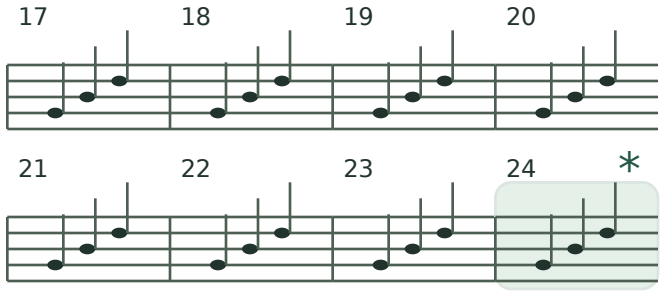

Score library

Practice review

Add a practice cue

After rehearsal, add context to your quick marker.

Section B - Measures 17-24

Movement I - Measure 24

What should you work on?

Keep the rhythm even through the transition.

Save cue & review >

Design decision: Separate the immediate marker from later note entry; keep the measure context visible.

Interview evidence: “If for whatever reason we’re moving really quickly or doing a lot of sight reading, I star the measure. And when I look at it later by myself, I’ll see the star and write it in.” — Interview 7

Segment: Reactive Score Annotators

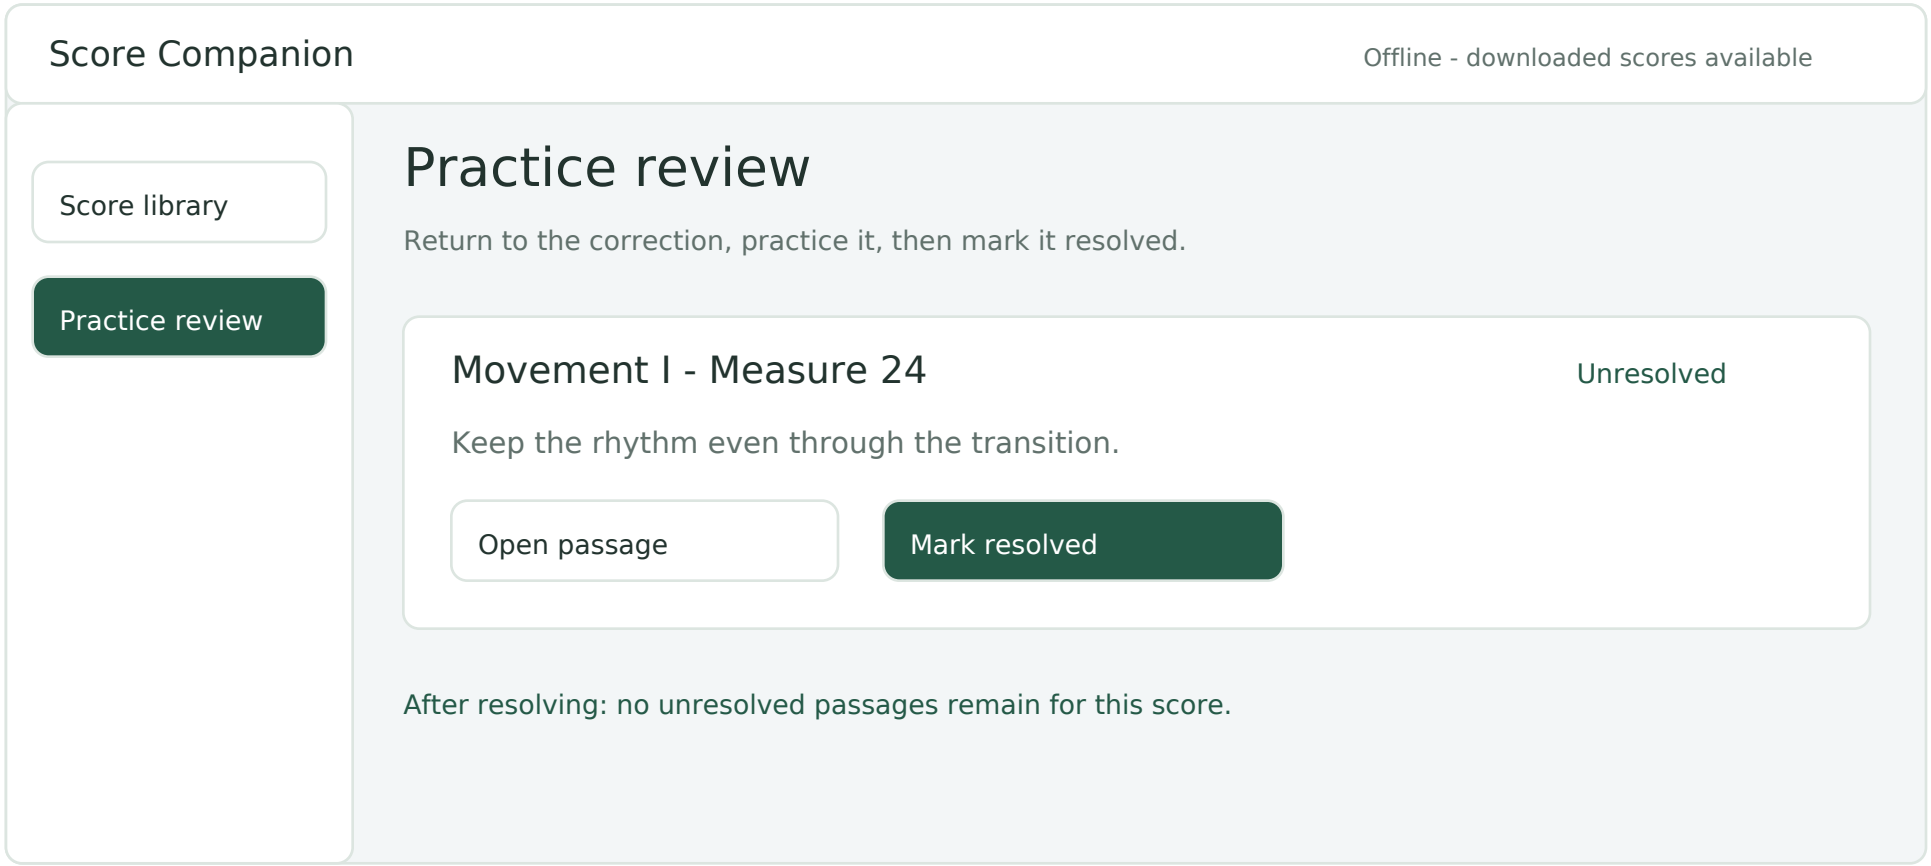

Next: save the cue and review.

Static UI prototype. Sample score content; offline storage and PDF handling are not implemented.

Screen 5 - Unresolved-passage review

P7 Rapid Prototyping | Responsive web app | Contributed by: C - Ankit Joshi

User action: Open the flagged passage, practice the correction, and mark it resolved.

Design decision: Keep unresolved corrections in a focused review list. Returning to and resolving digital markers remains an assumption to test.

Interview evidence: “Yeah. I remember it, and then I practice it the right way until it becomes muscle memory.” — Interview 1

Segment: Preparation-First Internalizers / Reactive Score Annotators

Completion: practice the passage and mark the correction resolved.

Static UI prototype. Sample score content; offline storage and PDF handling are not implemented.
